2027 Reliance Mission Trips

Our current plan, as of Fall 2026, is to take teams to four different locations in 2027. We are currently receiving applications for those interested in participating in any of these trips. Our goal is to have teams assembled for trips within 4-6 months of the trip date(s); sooner if possible. As with any trip, details and even the trip itself can be subject to change depending upon a number of variables. We may also explore other trip opportunities as the Lord opens doors.

TO APPLY for a trip, please fill out the online application at *reliancecommunity.org/missions* or scan this QR code.

After submitting your application, several team members will pray over, discern, and determine what the team make-up will be. Because of limited numbers for each trip, filling out an application does not guarantee a spot on the trip. We certainly wish we could take everyone. We do our best to pray over and determine the needs of the trip and then what team members might best fit that particular trip. Please know that if you are not selected for a particular trip, that you will not be excluded, in any way, from participating or applying for other/future trips.

With that said, we will do our best to communicate with you in a reasonable amount of time about your application and potential selection for the trip.

**Each trip will have additional requirements (training meetings, forms, etc) not currently listed on this information sheet. These requirements will be based on the specific needs of the trip, destination, and/or missionary requests.*
